

## Baoviet to launch new website

03.14.2011 - 01:02

### We're redesigning our website.

- ▶ We want to give you access to the very latest news about our companies... in a more user-friendly format using the latest technology.
- ▶ We're starting with the Holdings site, aiming to launch the new design in March 2011. We'll then gradually roll out the new templates across our subsidiaries through 2011.
- ▶ Until then, we ask for your patience and understanding as the sites are redeveloped.
- ▶ The new design will provide us with a great platform to launch further interactively and functionality to meet, and exceed, your needs and expectations.
