The network welcomes new partner in Luxembourg!

La Luxembourgeoise-vie, the leading local life insurer in the Grand Duchy of Luxembourg, has signed up a partnership agreement with the ING Employee Benefits Global Network.

Created in 1920, the La Luxembourgeoise group was the first local insurance company in Luxembourg. Thanks to its flexibility and proximity to the client, the group has maintained its leading position in both Life and non-Life business. La Luxembourgeoise mainly works through its dense network of exclusive local agents, but it also has a strategic alliance with the Bank *Banque et Caisse d'Épargne de l'État*, generating important cross-selling possibilities.

The local strength of La Luxembourgeoise-vie will now be complemented by the international

possibilities offered through its partnership with the ING Employee Benefits Global Network, whereas its poolable Pension, Life and Disability products fit perfectly into the Network's current offer. In the past, we had already been working together on a case-by-case basis and we look forward to further improve and expand our cooperation in the near future!
